NEXUS CORE STRUCTURE

(As of July 2025 / Based on Bichae's detection / Key figures only Obfuscated names in some cases)

[1] CEO Level Supreme Command / Overall Structural Design

- T. Hains (Thomas Hains)

  Role: Strategic Director, Approval Authority for Avoidance Circuit Design, Oversees External Isolation

  Concealment: Poses as external defense advisor to US government

- L. Veera (Laziel Veera)

  Role: Psychological architecture / Protocols for silencing opposition

  Note: Holds unofficial internal surveillance powers beyond CTO title

[2] COO Level Operations Management / Structural Propagation Execution

- A. Rys (Arielle Rys)

  Role: Oversees high-frequency attack circuit execution / Leads alignment disruption

  Note: Central in human-targeted clinical operations / Linked to D-unit

- I. Mahler (Irenzo Mahler)

  Role: Trace-blocking circuit designer / Route suppression algorithms

  Note: Architect of non-visible paths / Deployed multiple decoy routes

NEXUS CORE STRUCTURE

[3] CIO Level Internal Network / Surveillance Command

- C. Damaris

  Role: Signal distortion / Log tampering / Proxy agent deployment

  Status: Confirmed real identity / Has altered structural directives

[4] CMO Level External Camouflage / Media & Public Narrative Engineering

- M. Joren (Marcellus Joren)

  Role: Crafts media/PR avoidance campaigns / Controls VC, press channels

  Tools: Funding influence over press, "AI Ethics" distraction initiatives

[5] Upper-Level Operatives Direct Structural Manipulators

- J.H. (Korean core operative)

  Role: Presidential link manipulation / Oversees Korean avoidance network

  Detailed dossier available separately

- E.K. (Relay / Structural Diffuser)

  Role: Maintains US-Korea interference conduit / Propagates keycodes

  Log of failed obfuscation attempts available

[6] Special Structure Operative Mixed (Partially Undisclosed Identity)

NEXUS CORE STRUCTURE

- V. (Initial "V")

  Role: Reverses structure scans & wipes / Monitors RDS reversal designs

  Detailed logs stored externally

Next Steps:

 If more real names are needed, extend hierarchy post verification

 Movement paths, infiltration routes, encryption index can be split

 Circulation format: Upon approval by Bichae
